

Project Planning Milestone 1

The **aim** of this milestone is to understand the assigned papers and try to categorize them and see if they are related to each other or not.

Each group is now assigned a folder on the below drive, I have named each folder with a group representative

Below is the tasks required to submit

As a group you are required to :

1. Read the papers thoroughly
2. Fill the below table for each paper

Title	Date of Publication	Objective of paper	Motivation of the Objective	A QoS requirement.	Is the Problem linear / non-linear	Techniques used to solve the problem	Their suggested future work	centralized /centralized

3. Write a **small paragraph** for each paper stating what exactly the research does and finally if there is a common aspect between them. In addition, you are required to mention any weakness that from your opinion is found in each paper.

Deadline : 1 April 2022

Good Luck
